

MAJOR ROADS PROJECTS IN MARIN COUNTY

Since inception, Measure A allocations were made to Major Roads projects identified in the Measure A expenditure plan including:

Southern Marin Planning Area: Miller Avenue, Mill Valley

OVERVIEW

The Miller Avenue Streetscape Project, sponsored by the City of Mill Valley, is designed to make Miller Avenue safer, more efficient and enjoyable for all who use this busy roadway, including pedestrians, bicyclists, motorists, transit users, visitors and more. The main components of the project include:

- A continuous bike lane from Sunnyside to Almonte
- Sidewalk repair and widening in some sections
- Improvements to bus shelters
- Improvements to the drainage and pavement of the roadway

PARTNERS

The project is managed by the City of Mill Valley.

COST AND FUNDING

\$10.25 million has been allocated from Measure A 1/2 cent transportation sales tax..

STATUS

In October 2014, following completion of 30% design plans, the Mill Valley City Council confirmed project funding and approved an implementation plan for the Project. In November 2015, the City Council reviewed the 60% design plans, approved the Initial Study/Mitigated Negative Declaration, and approved working toward the 90% design plans. In March 2016, the Mill Valley City Council approved final design. A construction contract was awarded in May 2016 and construction began in June 2016. Construction is expected to be completed in the Fall of 2017.

ISSUES/RESOLUTION
