

July 26, 2018

Dear TAM Board Members:

San Rafael City Schools greatly appreciates the Transportation Authority of Marin (TAM) considering the award of Transportation Fund for Clean Air (TFCA) grant funds to our schools in the amount of \$60,000 for Electric Vehicle (EV) charging infrastructure.

On behalf of our students and staff, we are thrilled to be given the opportunity to support more sustainable transportation to reduce Marin's greenhouse gas emissions. We feel this is a greatly needed feature that will place San Rafael City Schools (SRCS) ahead of the curve to support this emerging field of clean transportation. The TAM Board's leadership in EV promotion is forward-thinking and will help us achieve our own goals.

Special thanks to Nick Nguyen and his team of colleagues at TAM for spending time working with us to create an implementation plan and support our next steps.

Over the next two years, in a multi-phase plan, SRCS will install EV chargers between school sites such as: San Rafael High School, Terra Linda High School, and Davidson Middle School. We are financially committed and resolved to seeing EV chargers throughout the school district. This grant from TFCA is a great help to seeing this plan through with the ambition to make SRCS a Green Ribbon District.

Sincerely,

SAN RAFAEL CITY SCHOOLS

Greg Knell  
Board President

Michael Watenpaugh  
Superintendent
